CIPT : Certified Information Privacy Technologist

The industry benchmark for IT professionals worldwide to validate their knowledge of privacy requirements

Because your technology skills can drive the privacy culture
The CIPT credential shows you've got the knowledge to build your organization's privacy structures from the ground up. With regulators worldwide calling for tech professionals to factor data privacy into their products and services, the job market for privacy-trained IT pros has never been stronger.
Do you work in IT, security, or engineering? The CIPT is for you. How about privacy by design, software engineering, data management or audit? Ditto.
Whether you work in the public or private sector, data privacy skills are quickly becoming a must-have—and that's a great opportunity for you.

Détails

- Code : IAPP-CIPT
- Durée : 2 jours (14 heures)

Public

- Architectes
- Consultants
- Consultants informatiques
- Ingénieurs
- Professionnels de l'IT

Pré-requis

Objectifs

- Critical privacy concepts and practices that impact IT
- Consumer privacy expectations and responsibility
- How to bake privacy into early stages of IT products and services for cost control, accuracy and speed-to-market
- How to establish privacy practices for data collection and transfer
- How to preempt privacy issues in the Internet of Thingsprivacy into data classification and emerging tech such as cloud computing, facial recognition and surveillance

Programme

The CIPT is the first and only certification of its kind worldwide.

- It was launched by the IAPP in 2014 to meet the growing need that only tech pros can fill—securing data privacy at all stages of IT product and service lifecycles.
- The IAPP's certifications in privacy and data protection law and practice have plugged thousands of professionals into the information economy.
- Now technology pros like you can take privacy knowledge—and your career—to a higher level.
- The CIPT body of knowledge outlines all the concepts and topics that you need to know to become certified.
- The exam blueprint gives you an idea of how many questions from each topic area you can expect on the exam.
